

Danny always told his father no, when asked about having friends over. Danny said he liked being alone with his father better. In a well written paragraph, pick one parent or grandparent and tell me that ONE thing you enjoy doing with them more than anything else. Include important details, such as ,.how long have you been doing this, how did it get started, etc.

I would pick my grandma, Wanda, and we would do Sequin Art. Sequin Art is where you get a foam box, a black sheet with the outline of like a butterfly or dolphin or something like that. The black sheet needs to have places where you can stick a needle into it. You take the sequins and make the shape and fill it in with the color or colors. You can then hang it up or place it somewhere in your house for decoration. This could take hours or days to do it well. My grandma and I have been doing this together for about 2 years. So far, we have only done 5, and are working on 2 more. (We're working seperately at the time to surprize each other.) We started it when she saw some in a magazine she was reading and ordered it. I said it looked interesting, and asked if I could help her. She said of course you can, and we have had so much fun doing it, we stuck with it. (I could bring one in to show you if you want. :))

▼ I WOULD PICK MY DAD.

My Dad, he taught me how to shoot a gun, taught me about 3 years ago. I love going hunting for rabbits with him, and he just got me a shot ~~gun~~ gun for my birthday (18. November)
