Wiki Assignment Criteria – 35 points

The following is a list of criteria to be considered for inclusion for each school wiki topic. It is up to each group to reach consensus on what relevant information is necessary for inclusion according to its topic. The group will earn points out of 35 based on what is determined by the teacher and fellow students as relevant for inclusion and the dept h of the information presented by each group. Inclusion of current political/education issues affecting each school topic offers **10 extra credit** points for each group.

Age

Grades/levels

Subjects taught

what are the buildings like/classrooms

how many hours spent in school per week/year

where do students study
