## Spending Money

Name \_\_\_\_\_  
Period \_\_\_\_\_ Date \_\_\_\_\_

Hi,

I am Haley Moneybags and I just graduated college and got my first job. I am super excited but a little overwhelmed by all of the things that come along with getting my first job. I would like to know how much money I will have at the end of each month to go shopping with. I am so excited to be able to buy all of the things I have always wanted. Here is what I KNOW:

**Yearly Salary:** \$36,000 before taxes

**Taxes:** The government will take 25% of your salary for taxes

### Monthly Bills:

<sup>loan</sup> Car Payment: \$367.80

mortgage / Rent: \$450.00 ~~\$500.00~~

Car Insurance: \$78.84

Cable: \$36.47

Utilities: \$88.55 <sup>Electricity/Gas</sup>

Water: \$31.65

Cell Phone: \$65.34

college Loan Payment: \$230.23

no elaboration on math skills?!

\*Did Haley give us all her information?

on back of question

\*What expenses might she have that she didn't mention to us?

Interview?!

Savings?

\*How will those expenses change the number that we gave her for the amount of spending money that she will have?

\*What do we need to do to fix our answer that we gave her?

average on groceries?

OK	EC	VBS
2	2	2 *

when will this start to effect you?
