

Title: Math - Budgeting Fun
By: Cindy Knock
Subject - Math
Grade Level - 4th grade
Gilbert High School - Level III students
Duration: 1 or 2 class periods

Resources: Current catalog flyers from various stores

General Objective: To teach students about budgets and money by getting them to use current newspaper flyers and a grid sheet.

Introduction:

- Hand out a current flyer to each student. (can be the same or different based on student interests)
- Ask the students if they have ever done anything like this and if they have any questions.

Step 1:

- Hand out current flyer to each student.
- Hand out grid sheet to each student
- Explain how much they have in their budget.
- Discuss how they will design their budget.

Step 2:

- Ask the students to brainstorm what type of items they might be purchasing.
- Ask the students to look at their lists and think about what might be realistic.

Conclusion:

Ask students to share their budget. They should be able to give a rationale as to what they are purchasing and why.
