

Chemistry Ch 4 Assignment Grid

Do one of the following items. The assignment is due on Monday. The test will be on Tuesday.

<p>Create a 2 pg typed Newsletter in Pages about JJ Thomson, Eugen Goldstein, James Chadwick, Robert A. Millikan or Ernest Rutherford. Be sure and include details about their discoveries related to the atom and atomic structure. All reports must be 1 inch margins, 12 point font. You should include pictures but there must be the equivalent of at least one page of typed information.</p>	<p>Create a podcast (using Garageband) detailing either the discovery of the proton, neutron, electron or the nucleus of the atom. Include details about who, what, when and how this changed the current view of the atom. The podcast should be about 2 – 4 minutes long. This presentation should be serious and contain relevant information. Present your presentation to the class.</p>
<p>Create a 3-D model of the atom. Make sure all parts are labeled and identified. The model must be on some type of display stand or case and must be well constructed. The model will be graded on accuracy, design, quality, sturdiness and the display itself.</p>	<p>Create a Keynote presentation detailing the discovery of all the parts of the atom. Your presentation should include both text and pictures. Present your presentation to the class.</p>
