

## Shooting Victim – Reconstruction

**DO NOT WRITE ON THIS PAPER!**

Reconstruct the events surrounding the shooting of the victim.

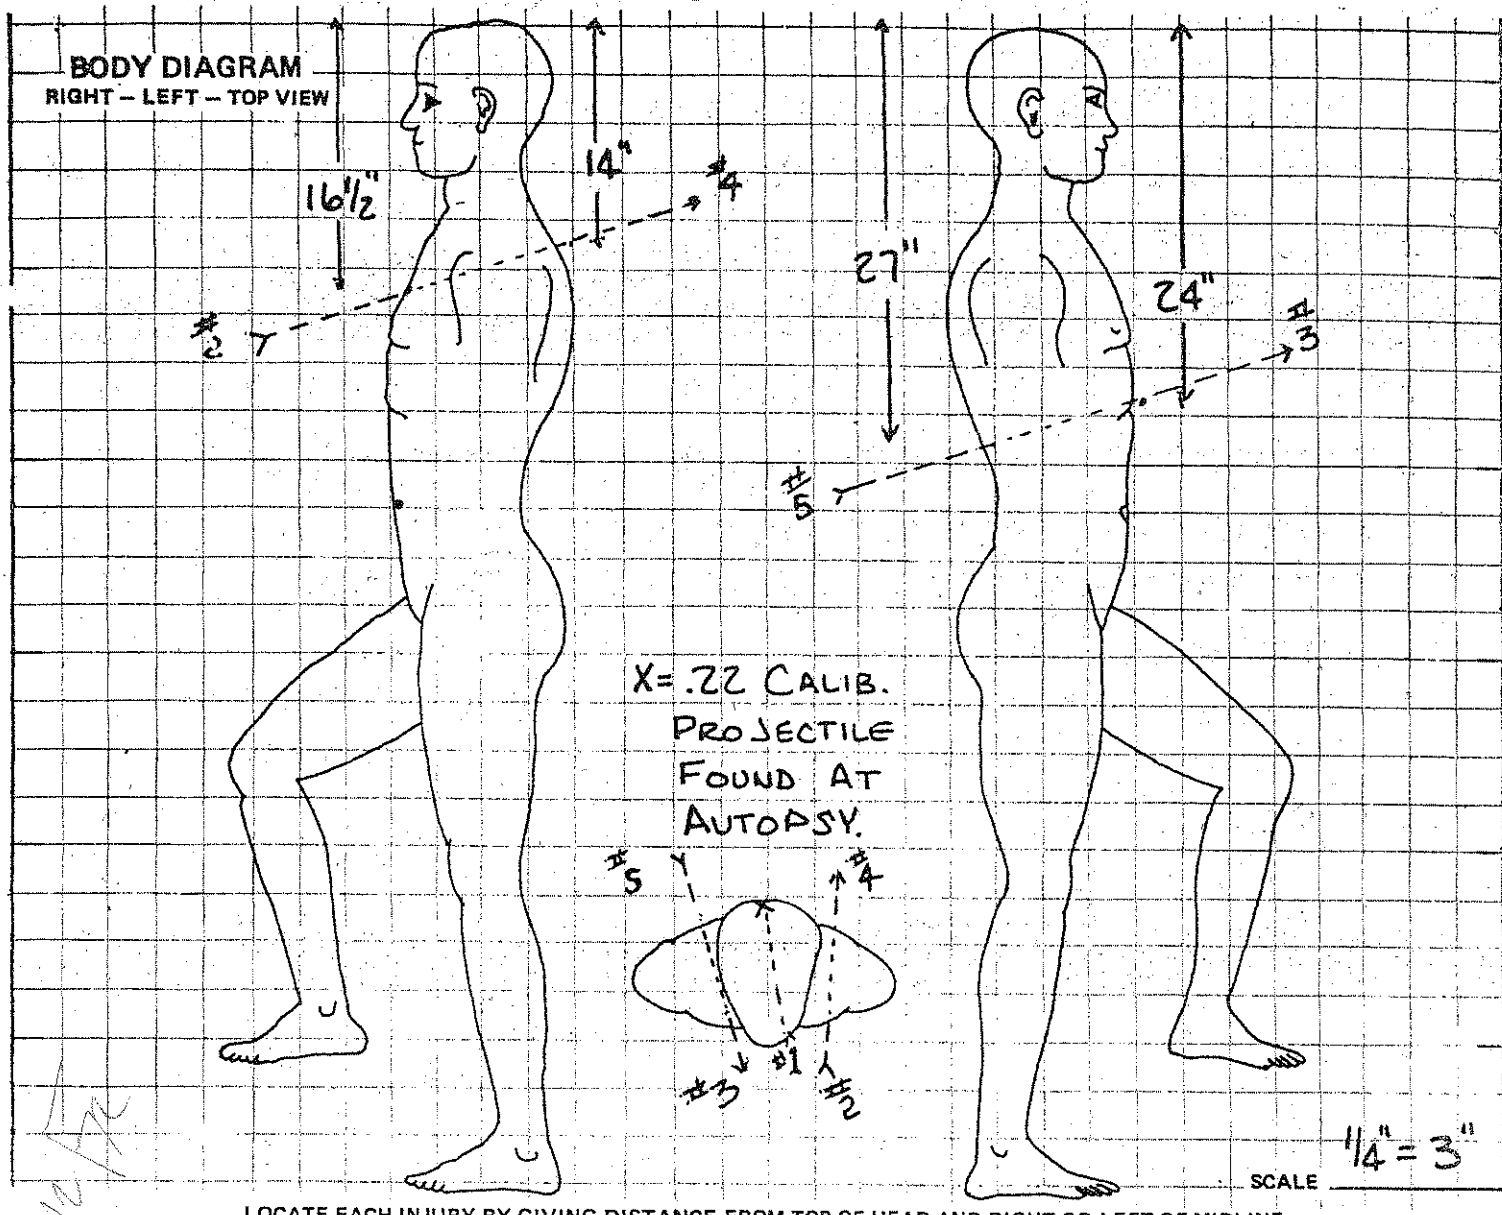

You may choose to do this in one of three ways.

### A. Write out a report where you:

1. Examine the autopsy report of the Victim. Based on the position of the entrance and exit wounds, determine the order you believe the three shots were fired into the victim. (Example: A-B-C)  
**Support your choice** of the sequence of the three shots, **what is logical this sequence?**
2. After you have determined your sequence of the three shots, reconstruct the scene. That is place the shooter relative to the victim for each of the three shots: **Defend your position on this!**
3. Do you believe the shooter to be taller or shorter than the victim? **Are you certain? WHY OR WHY NOT?**
4. Could someone challenge your views of this shooting? If so how? What could they argue?

### B. Reenact the event with another person. One being the shooter, the other the victim. (A toy gun will be provided to be used as the weapon)

### C. Make a video showing the reenactment of the shooting.

LOCATE EACH INJURY BY GIVING DISTANCE FROM TOP OF HEAD AND RIGHT OR LEFT OF MIDLINE.

Name JOSEPH SEVERE BLOW A.K.A. JOE BLOW S.S. # 440-30-766c

D.O.B. 6-31-45 Age 32 Race W Sex M Ht. 72" Wt. 180 Hair MED. BROWN Eyes BLUE Glasses? No
