

## Geography Class Website on Mexico

We are going to create a website on the people and culture of Mexico. The class will be divided into 8 groups, each group will be assigned one of the Cultural Universals to research about Mexico: **Information that you research should be items that would be useful to a person going to or studying Mexico.**

1. History (significant events, celebrations)
2. Art (media, architecture, **music**)
3. Daily Life (food, work, **festivals**)
4. Government (type, setup, issues)
5. Religion (major practice, unique)
6. Economy (industry, tourism)
7. Social Groups (ethnic groups, **families**, others)
8. Language (dialects around the country)

Use size 16 font on text.

Color of background should match culture of Mexico.

Title for your webpage will be Mexico-topic-class.

One person in the group will create the site and share with others as editors.

One person will share the site with me, and I will create a site for the class.

Grade will be reduced for copy/paste of text.

Each member of the group will create a page on a particular topic about the cultural universal and will be graded as an individual.
