### **Task - (Can attach)**

Generate a list of positive agreements ("this is how we do things around here"). Write on newsprint so everyone can see. After the list has been generated, go through them and ask for further clarification and get feedback on whether the agreement is something each person will follow when in this group.

On a new piece of newsprint transfer the final agreed upon terms and have each participant sign their name. This affirms that they all will follow the agreements and understand what they mean.
