

iMovie - Children's Book/Story

Objective: Create a movie of your favorite children's book or story using iMovie.

Target Audience: 3-5 year old children.

Choose one of the following options to create the scenes for the movie.

Creation options:

Act out scenes and video tape.

Use Clipart.

Required items.

Title slide

Credit slide

Voiceover to tell the story.

Music and/or sounds to help to tell the story.

You will be graded on the iMovie's technical aspects as well as the stories overall appeal. You may have creative license to alter the story a little, but you still need to give credit to the original story or book that your movie is based.

Children's iMovie Scoring Guide

Title Page	5	3	1	0	Total
	Creative and easy to tell what book you are sharing and whose project this is.	Tells title of book and your name only	Can tell the title of the book only	No title page	
Voice Quality	10	7	4	0	
	Easily understood and strong voice	Easily understood but voice sometimes quiet	Not easy to understand and voice is too quiet	Can not hear or understand.
